

SQUARE GOLF

LIFELIKE EXPERIENCE

The background features a solid green color with several dark green, three-dimensional geometric shapes that appear to be floating or overlapping. These shapes include rectangular blocks and angular forms, creating a modern, architectural aesthetic.

SQUARE GOLF DECLARATION

Golf is built on a circular swing, but performance comes from square fundamentals.

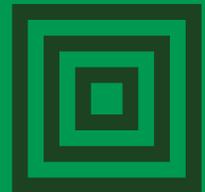

Square Golf makes those fundamentals clear and accessible to every golfer. Not just professionals or early adopters, but anyone who wants to improve.

By removing unnecessary complexity and cost, we give golfers a simpler way to learn, practice, and progress with confidence.

We move forward with the entire golf community—helping players build consistency, unlock precision, and enjoy the game we love.

**Precision is a skill.
Accessibility is the future of golf.**

ECOSYSTEM - A Unified Experience For Every Golfer.

SQUARE GOLF ECOSYSTEM

Square Golf is a unified golf technology ecosystem that delivers the same precision and experience anywhere.

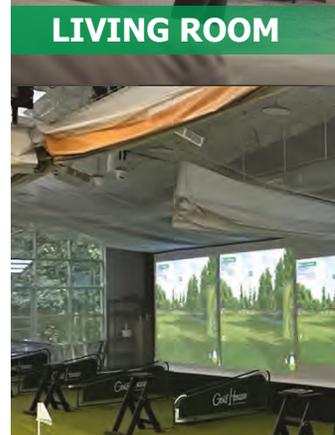

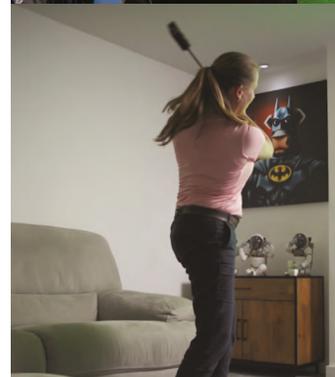

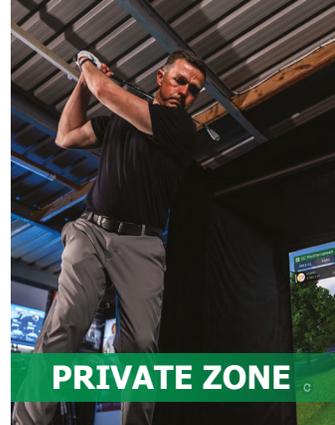

From the living room to private studios and outdoor driving ranges, our full product lineup connects seamlessly through one platform, creating a single, consistent Square experience across every environment.

**One technology, every environment.
A unified experience for every golfer.**

Connected Platform

All devices connect seamlessly through the unified Square Golf Platform.

- Integrated storage of all swing data
- Consistent analysis across devices
- Player-specific records, statistics, and performance trends
- Mobile and web-based management

SQUARE GOLF HOME EDITION

The Square Golf Home Edition brings professional-grade impact and launch analysis into the comfort of your home.

With effortless setup and tour-level precision, it transforms your living room, spare room, or private studio into a fully capable golf practice space.

Connected Platform

Accurate data is the foundation of real improvement.

Home Edition delivers the essential metrics you need to understand, adjust, and refine your swing with confidence.

- Ball Speed & Launch Direction
- Spin & Spin Axis (requires marked ball)
- Launch Angle & Carry Distance
- Swing path & Face Alignment Data
- Virtual swing mode (with swing stick)

Hassle-free Setup. Powerful Performance.

Designed for golfers who want professional insights without complexity.

- Installs in minutes
- Works in small indoor spaces
- Indoor-optimized algorithms for consistent accuracy

OMNI EDITION - Precision Meets the Outdoors.

SQUARE GOLF OMNI EDITION

The Square Golf Omni Edition is the next evolution of accessible golf technology - engineered to deliver professional-grade impact and launch data directly on real grass.

From the driving range to the fairway, Omni Edition enables golfers to train with true on-course conditions and unmatched portability.

Train Where It Matters Most

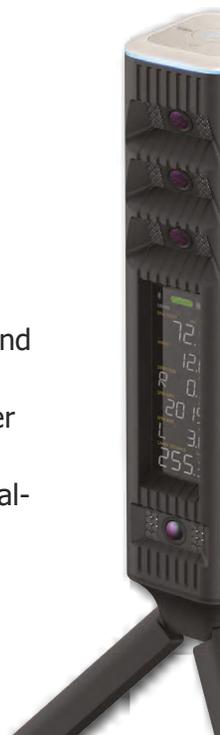

Omni Edition measures your ball Launch exactly as it happens in real turf, real lies, and real playing environments.

- Ball Speed & Launch Angle
- Spin & Spin Axis (measured with any standard golf ball)
- Impact Location & Face Alignment
- Swing path & Club Speed
- Carry Distance

Engineered for the Outdoors

Every element of Omni Edition is built for performance beyond the indoor studio.

- Optimized for sunlight, wind, and variable grass conditions
- Fast setup-place it down, power on, and hit
- Rugged, portable design for real-world durability
- Accurate readings across wedges, irons, and drivers

RANGE EDITION - Transform Every Range Into a Data-Driven Space.

SQUARE GOLF RANGE EDITION

The Square Golf Range Edition is a professional, installation-ready solution designed for indoor and outdoor driving ranges.

With an integrated motion-analysis swing camera and precise impact & launch tracking, Range Edition delivers a premium training and entertainment experience for golfers and instructors alike.

Integrated Swing Camera

Capture every swing with clarity.

- Auto-trigger swing recording
- High-FPS capture for accurate impact visualization
- Instant on-screen playback for immediate correction
- Ideal for both coaching and self training

Real-Time Impact & Launch Data

Deliver accurate feedback that golfers can trust.

- Ball Speed & Club Speed
- Spin & Spin Axis (with any ball)
- Face Alignment & Impact Location
- Shot-shape consistency and performance metrics

Built for Driving Ranges - Indoor or Outdoor

Whether indoors or outdoors, Range Edition delivers a consistent, professional experience - with the convenience of effortless remote management.

- Stable, low-latency indoor & outdoor operation
- Modular installation for single bays or full-range deployment
- Remote diagnostics for easy system monitoring and maintenance

SQUARE GOLF

Your Game, Your Data, Your Progress - All in One Place.

SQUARE GOLF SIMULATION SOFTWARE

The Square Golf App is the core of the Square ecosystem-connecting Home Edition and Omni Edition into one unified performance platform.

Whether you're practicing indoors at home or hitting shots on natural turf, the app delivers consistent, precise insights that help you improve faster.

Play Lifelike 3D Course Anytime. Anywhere.

Experience stunningly realistic golf course graphics directly inside the app.

- Immersive 3D course rendering
- Real-shot physics tied to actual impact & launch data
- Practice modes and full-course play

Easy Sharing & Coaching Support

- Share swing metrics
- Export practice summaries
- Support structured coaching environments

Insights That Drive Improvement

Your practice evolves into a long-term improvement profile.

- Trend analysis
- Club-by-club statistics
- Shot consistency metrics
- Session summaries

iOS, Android & PC One app. Total accessibility.

Seamless Compatibility With Leading Simulation Software

SQUARE GOLF UNIVERSAL CONNECTIVITY

Square Golf devices are built on an open, flexible platform that connects effortlessly with the world's leading golf simulation software.

Whether you prefer hyper-realistic physics, championship-level course graphics, or fun, family-friendly gameplay, Square Golf gives you the freedom to choose your ideal experience.

Your Device. Your Software. Unlimited Possibilities.

Square Golf doesn't lock you into a single ecosystem - you choose the software, and Square Golf delivers the data.

- Fully Compatible with Home Edition and Omni Edition
- Simple setup for immediate, hassle-free play

E6 & E6 APEX

- World-class course graphics
- A wide range of practice modes and challenges
- Smooth, immersive gameplay powered by precise launch data

GSPRO

- Ultra-realistic ball-flight physics
- Beautiful, true-to-life course designs
- Online play and competitive community features

Awesome Golf

- Fun, fast and family-friendly gameplay
- Target games, range modes, and skill challenges
- Accessible design for golfers of all ages

Square Golf is continuously expanding compatibility with more simulation platforms.
